

# Toxicology Lab Supervisor - LC/MS Drug Confirmation

## New York

We have an URGENT need for a Lab Supervisor of a high complexity tox lab in New York City. Our client is willing to pay top dollar for a strong LC/MS chemist who has previously managed others in the lab. Their preference is for candidates to have a New York State (NYS) Medical Technologist License. Details below!

## Primary Responsibilities

- Primary focus is managing the toxicology lab's urine drug screening and confirmation efforts for compounds such as opioids, benzodiazepines, and barbiturates.
- Help develop new drug panels and optimize current methods for improved sensitivity and selectivity
- Participate in producing high quality results for physicians and hospitals while maximizing throughput & sample turnaround
- Management of Med Techs and Chemists (up to 8 direct reports)
- Hiring/training additional employees as needed

## Primary Requirements

- 2+ years experience with LC/MS/MS in a toxicology or forensic lab with urine drug analysis
- New York State Medical Technologist license is PREFERRED
- Ability to optimize clinical methods and troubleshoot instrumentation
- Operational knowledge Sciex and/or Agilent triple quadrupole mass spectrometers
- Must have a desire to manage others and be highly organized and reliable. The ideal candidate will be able to independently manage the lab

## APPLY NOW!

If this role is of interest to you, and your background is suitable, please email your resume in WORD format to [eberner@VRS-US.com](mailto:eberner@VRS-US.com)
