

Product Development Director – Clinical Mass Spec

California

Outstanding opportunity to lead the development and commercialization of a novel mass spectrometer for clinical applications. Our client, a well-funded start up based out of the **Greater Sacramento CA** area, is looking for a Product Manager capable of delivering to market a robust and cost-efficient product coupling technology related to Mass Spectrometry and Capillary Electrophoresis.

Primary Responsibilities

- Manage the engineering and manufacturing function of a start-up instrument company including: product road mapping, regulatory compliance, & resource management
- Interface with employees, consultants, and outside contractors to insure all phases of prototype development meet the required timeline and criteria required by investors
- Transfer prototype instruments into production ready models

Primary Qualifications

- Minimum of a B.S. in an engineering/scientific discipline
- Industry experience managing the development of analytical instrumentation
- Experience developing Separations-related instruments (CE or MS) a MASSIVE plus!
